

PIRATE HUNT

Pirate Hunters: Your job is to use the GPS to track down and capture the pirates hiding in the ocean (the woods). They are hiding so well - they are actually invisible. But, your GPS will say, "Course Completed," each time you've captured one.

It is your group's job to decide (as a group) which way to go and which pirates to search for.

You also have a map to give show you where they are hiding and step-by-step instructions telling you how to use the GPS. (The names on the map are in the GPS.)

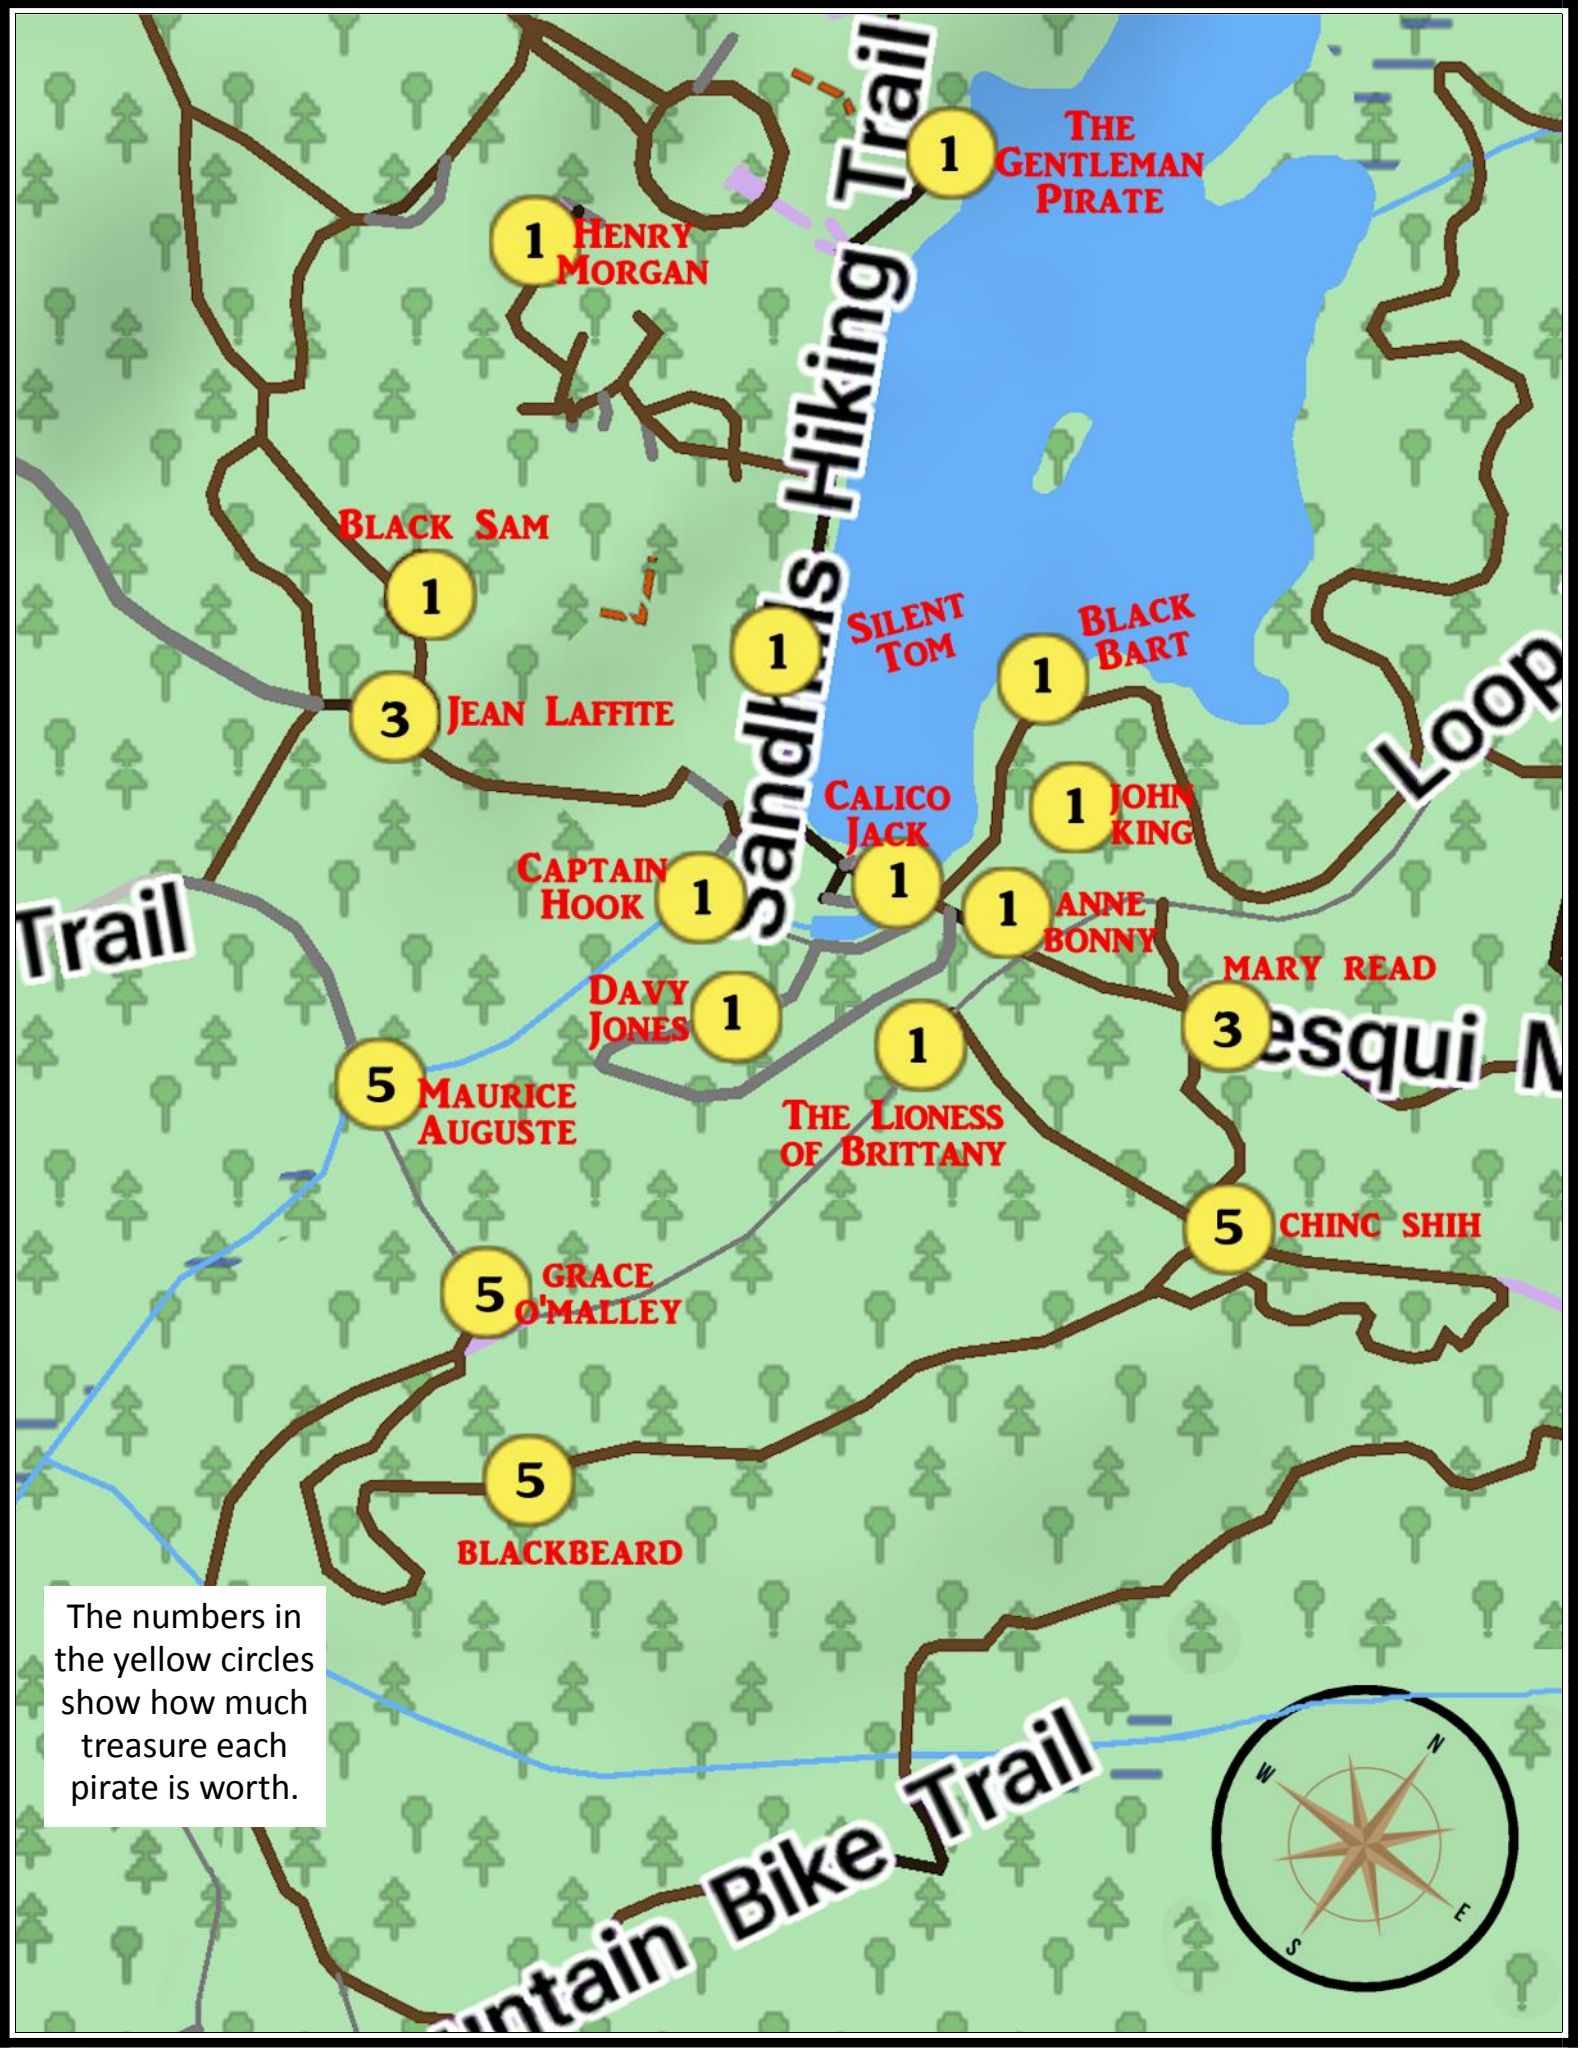

It is not a perfect map. There are many more trails than those shown. Stay on the clear trails and sand roads.

Each time you find a pirate, your group earns a card with the pirate's actual name, their nickname (if they had one) - in yellow, a QR code (maybe) you can follow to read about them, and the number of pieces of treasure the pirate is worth.

The more effort you need to track down the pirate, the more they are worth. Each group member will receive the treasure when the hunt is over.

SOME OF THESE PIRATES WERE REAL AND SOME ARE MADE UP.
